A rumor prevailed at Aspinwall previous to the sailing of the steamer on the 4th that Costa Rica and Nicara-gua had adjusted their difficulties—Costa Rica aban-doning all pretensions to Forts San Carlos and Castillo, as well as the control of the river San Juan. Costa Rica also consents that the department of Guanacaste, occu-pied by the government of Costa Rica, shall be nomi-nally considered the territory of Nicaragua. This leaves the whole question in the same position that it has been for a long time past. It is said that 400 Nicaraguans had arrived at Fort San Carlos to strengthen that port previous to Anderson's leaving Castillo.

charine virtues of *Imphae*, a species of sugar-cane, giving its origin and history, and its productive powers. A debate ensued, which at first bid fair to be somewhat

personal, but during which many valuable facts were

elicited.

Dr. Charles J. Jackson, of Boston, a distinguished chemist, stated the result of his analysis of the seed and cane. In Massachusetts last year, when winter lingered almost into summer, but little of the Chinese sugar-cane ripened. In the North, molasses, sirup, and alcohol could also be produced from the Chinese cane; but sugar could not be counted on in short seasons. Where the cane can be ripened, he was satisfied that it would be a very valnable crop; but, even where it cannot be ripened, it would be valuable for sirup and other purposes. In Massachusetts, on good, fair, arable soil, an average yield from the acre. The cane contains 15 per cent of saccharine mat-ter, 12 per cent. proof spirits, and 9 per cent of crystal-ized sugar. In the manufacture of alcohol, (75 per cent. of that now made in New England being used in ma-chanics and manufactures,) the Chinese sugar-cane would, in Dr. Jackson's estimation, be of immense benefit to the people.

Resolutions were passed requesting the Commissioner of Patents to cause comparisons to be instituted, if possible, by agriculturalists in correspondence with his office, be-

EVERAL new leaves turned over, and expressed in the language of a friend, which we adopt:

We beg respectfully to state to cautomers keeping accounts with us that, it consequence of the continued derangement in financial matter, and the general shortening of credits, we feel obliged to make a clange in terms of estlement of many parties who deal with us.

We will insist strictly on the payment in cash of all accounts made after this date, when rendered. No actilement in any other made than a cash payment will be acceptable, and any account as satisfaring will be discontinued.

Nothing will hereafter be charged to persons who may hereiofore have had a few small thems charged occasionally, without its being considered by either party a regular account. Long experience has shown us that such bills are by far the most difficult to collect. We will also decline to open accounts with parties (so matter how responsible) who have not hereiofore had a regular account with us.
